**PRODUCTS WE DISTRIBUTE**

**AUTHORIZED SERVICE CENTER FOR:**

**Welcome** to our new website!

Cortes Industrial was originally structured for the repair of industrial electric motors and generators, but with time, the services have expanded to include mechanical repairs for pumps and other industrial rotating equipment.

**OUR MISSION**

**MINIMIZING OUR CUSTOMERS DOWNTIME**

Our team of employees understands that minimizing our customer's downtime means preventing the loss of thousands of dollars of production when our customer's machinery is not functioning properly.

It also makes us very proud when everyone of us can contribute in restoring basic needs such as water and electricity for thousands of people.
